

Echo Challenges (not listed in order)

LV myxoma

PDA

Clot in LAA

Velocity of color propagation

RV clot in transit

Pacer associated thrombus

Diastolic MR

Sterile calcific abscess of MV

PFO with pulmonary HBP

RV thrombus

Lambd' excrescence

Multiple LV thrombi

Thoraco-abdominal aneurysm

AVR dehiscence

Aortic valve fibroelastoma

Permanent pacer lead in LV

LVAD related color artifact

Lucent LV thrombus

Tiger stripes

LVAD suction event

LASH

Takotsubo

LAA smoke

Pericardial microbubbles

Ascites

Atrial flutter

Apical hypertrophic myopathy

Abdominal aortic aneurysm with clot

AVR dysfunction

Persistent left superior vena cava

Pulmonary diastolic and mean pressure

Sympathetic pericardial effusion
