

Vascular Ultrasound Learning Module:

Lectures:

1. The Renal Duplex Examination: A Cardiology Perspective - Dr. Allan Zelinger
2. Non Invasive Arterial Evaluation of the Lower Extremity - Dr. David Amstel
3. Principle of Arterial Doppler & Assessment of Carotid Arteries & Cerebral Circulation - Dr. David Vance
4. Duplex Examination of the Abdominal Aorta - Dr. Allan Zelinger
5. Venous Duplex Examination of the Lower Extremities - Dr. Allan Zelinger
6. Ultrasound Assessment of Peripheral Grafts - Dr. David Amstel

Cases:

1. Aorta
2. Carotid
3. Renal
4. Aortic aneurysm
5. Iliac artery
6. Carotid
7. Stent in ICA
8. Lt. leg claudication
9. Claudication following a proximal femoral popliteal bypass
10. PTFE (polytetrafluoroethylene) femoral popliteal arterial graft
11. Kidney
12. Occluded distal segment of the SFA

13. External segmental pressure and Doppler assessment

14. Segmental pressure and Doppler assessment

Quizes:

1. Evaluation of Abdominal Aorta

2. Lower extremity venous evaluation

3. Carotid and vertebral evaluation
